

## Bunge Reports Second Quarter 2021 Results

St. Louis, MO - July 28, 2021 - Bunge Limited (NYSE:BG) today reported second quarter 2021 results

- Q2 GAAP EPS of \$2.37 vs. \$3.47 in the prior year; \$2.61 vs. \$1.88 on an adjusted basis excluding certain gains/charges and mark-to-market timing differences
- Continued strong Agribusiness execution across the global network
- Outstanding Refined and Specialty Oils results driven by increasing demand and record refining capacity utilization
- Increasing full-year adjusted EPS outlook to at least \$8.50 based on strong Q2 results
- Updating mid-cycle earnings baseline with \$2 per share increase reflecting structural changes in oilseed market environment and greater execution benefits from new operating model

### ➤ Overview

---

Greg Heckman, Bunge's Chief Executive Officer, commented, "Our team outperformed expectations by effectively navigating global volatility to produce another strong quarter of results. Our industrial, commercial and risk management teams collaborated throughout the value chains, optimizing trade flows and production volumes while reducing unplanned downtime.

"With an accelerating structural shift in demand for sustainable food, feed and fuel, Bunge's position in the global agribusiness supply chain provides growing opportunity to partner with customers to meet their needs in this changing environment," continued Mr. Heckman. "We are proud of our work with farmers and customers to sustainably connect supply and demand, develop innovative products and services and create new plant-based solutions."

Certain (gains) & charges	—	—	—	—
Adjusted Segment EBIT	\$ 403	\$ 495	\$ 1,004	\$ 759
Certain (gains) & charges, Net Income (Loss) Attributable to Bunge	\$ —	\$ —	\$ —	\$ —
Certain (gains) & charges, Earnings Per Share	\$ —	\$ —	\$ —	\$ —

#### Processing<sup>(2)</sup>

(US\$ in millions)	Quarter Ended		Six Months Ended	
	Jun 30, 2021	Jun 30, 2020	Jun 30, 2021	Jun 30, 2020
Processing EBIT	\$ 338	\$ 648	\$ 1,067	\$ 593
Mark-to-market timing difference	(129)	(301)	(495)	(37)
Certain (gains) & charges	—	—	—	—
Adjusted Processing EBIT	\$ 209	\$ 347	\$ 572	\$ 556

In Processing, higher results in North America and Argentina were more than offset by lower results in Europe and to a greater extent in Brazil, which included a decreased contribution from soybean origination due to an accelerated pace of farmer selling in the prior year.

## Merchandising <sup>(2)</sup>

(US\$ in millions)	Quarter Ended		Six Months Ended	
	Jun 30, 2021	Jun 30, 2020	Jun 30, 2021	Jun 30, 2020
Merchandising EBIT	\$ 26	\$ 225	\$ 133	\$ 159
Mark-to-market timing difference	168	(77)	299	44
Certain (gains) & charges	—	—	—	—
Adjusted Merchandising EBIT	\$ 194	\$ 148	\$ 432	\$ 203

In Merchandising, improved performance was primarily driven by higher results in ocean freight, due to strong execution, and our global grain value chains, which benefited from increased volumes and margins.

## Refined & Specialty Oils

(US\$ in millions, except per share data)	Quarter Ended		Six Months Ended	
	Jun 30, 2021	Jun 30, 2020	Jun 30, 2021	Jun 30, 2020

Adjusted Segment EBIT	\$ 113	\$ 48	\$ 237	\$ 115
Certain (gains) & charges, Net Income (Loss) Attributable to Bunge	\$ —	\$ —	\$ (165)	\$ —
Certain (gains) & charges, Earnings Per Share	\$ —	\$ —	\$ (1.08)	\$ —

## Refined & Specialty Oils Summary

The outstanding performance in the quarter was largely driven by higher margins and record capacity utilization in North America refining, which benefited from strong food service demand and increased demand from the renewable diesel sector. Improved results in South America were due to the combination of higher margins and lower costs, more than offsetting lower volumes. Europe benefited from increased volumes and margins.

## Milling

(US\$ in millions, except per share data)	Quarter Ended		Six Months Ended	
	Jun 30, 2021	Jun 30, 2020	Jun 30, 2021	Jun 30, 2020
Volumes (in thousand metric tons)	1,508	1,261	3,247	3,199

## Corporate and Other Summary

The increase in Corporate expenses during the quarter was primarily related to performance-based compensation accruals. The increase in Other was related to our captive insurance program.

## Non-core Segments

### Sugar & Bioenergy

(US\$ in millions, except per share data)	Quarter Ended		Six Months Ended	
	Jun 30, 2021	Jun 30, 2020	Jun 30, 2021	Jun 30, 2020

### Sugar & Bioenergy Summary

Improved results in the quarter were primarily driven by higher ethanol volume and margins. Prior year results were negatively impacted by approximately \$70 million in foreign exchange translation losses on U.S. dollar denominated debt of the joint venture due to depreciation of the Brazilian *real*.

### Cash Flow

	Six Months Ended	
	Jun 30, 2021	Jun 30, 2020
Cash used for operating activities	\$ (1,436)	\$ (1,502)
Proceeds from beneficial interest in securitized trade receivables	2,049	748
Cash (used for) provided by operating activities, adjusted	\$ 613	\$ (754)

Cash used for operations in the six months ended June 30, 2021 was \$1,436 million compared to cash used of \$1,502 million in the same period last year. Adjusting for the proceeds from beneficial interest in securitized trade receivables, cash provided from operating activities was \$613 million compared with cash used for operating activities of \$754 million in the prior year. Funds from operations (FFO) adjusted for notable items and mark-to-market timing differences was \$900 million compared to \$817 million in the prior year<sup>(5)</sup>.

### Income Taxes

For the six months ended June 30, 2021, income tax expense was \$242 million compared to an income tax expense of \$113 million for the prior year. The increase in income tax expense is due to higher pre-tax income, partially offset by a lower estimated effective tax rate for 2021.

## ➤ COVID-19 Update

---

Bunge continues to take proactive steps to protect the health and safety of its employees, their families and the communities in which it operates. Through an internal task force, the Company closely monitors developments related to the pandemic and provides guidance to its facilities worldwide. Each of Bunge's facilities around the globe is taking steps to respond to COVID-19 based on the nature of its operations and the guidelines from and actions being taken by local governments. The Company has continued to restrict travel, follow upgraded cleaning practices at its facilities and offices, put in place remote work arrangements for teammates wherever possible, reduce staffing in its production and other facilities and keep social distancing and other safety related measures in place. Bunge is strongly encouraging its employees to be vaccinated when available in their countries, and facilitating this when possible.

Numerous countries around the globe, including places where Bunge operates production facilities or maintains offices, have continued to impose quarantines and significant restrictions, including shelter-in-place or stay-at-home orders. Additionally, a rise in the number of observed COVID-19 cases in certain parts of the world may lead to governments re-imposing travel and work restrictions or imposing additional restrictions. In locations where such restrictions are in place, Bunge has been deemed an essential or life-sustaining operation. To date, the Company has not seen a significant disruption in its supply chain, has been able to mitigate logistics and distribution issues that have arisen, and substantially all of its facilities around the world have continued to operate at or near normal levels. Bunge continues to monitor local, regional and national governmental actions that could limit or restrict the movement of agricultural commodities or products or otherwise disrupt physical product flows or its ability to operate in the future.

## ➤ Outlook

---

We are increasing our full-year 2021 EPS outlook to reflect our strong second quarter results. We are now forecasting full-year 2021 adjusted EPS of at least \$8.50 per share.

In Agribusiness, results are expected to be modestly up from our previous outlook, but still forecasted to be down from a very strong 2020.

In Refined and Specialty Oils, results are expected to be up from our previous outlook reflecting our strong second quarter results and positive trends in North America being driven by increased demand from food service and renewable diesel.

We continue to expect results in Milling and Corporate and Other to be generally in line with last year.

Additionally, the Company now expects the following for 2021: an adjusted annual effective tax rate in the range of 17% to 19%; net interest expense in the range of \$220 to \$230 million; capital expenditures in the range of \$450 to \$500 million; and depreciation and amortization of approximately \$420 million.

In Non-Core, full-year results in the sugar and bioenergy joint venture are expected to be a positive contributor.

## ➤ Updated Mid-Cycle Earnings Baseline

---

The Company has also updated its mid-cycle baseline EPS. This update reflects structural improvement in oilseed market fundamentals, as well as greater benefits following the change in Bunge's operating model to a global value chain approach. We now estimate our mid-cycle EPS is \$7, an increase of \$2 from the baseline provided at the Company's Virtual Business Update Meeting on June 24, 2020.

## Core Segments

### Refined and Specialty Oil Products

EBIT for the six months ended June 30, 2021 included \$170 million in gains on sale of assets, comprised of a \$151 million gain on sale of our Rotterdam Oils Refinery, at Bunge's 70% share, and a \$19 million gain on sale of an oils packaging facility in Mexico, both recorded in Other income (expense) - net.

### Corporate and Other

EBIT for the six month period ended June 30, 2020 included a \$66 million charge primarily related to a provision against an aged receivable dating from 2015 that in the quarter ended June 30, 2020 became deemed uncollectible as part of an anticipated legal settlement. For this matter \$51 million was recorded in SG&A and \$15 million was recorded in Other income (expense) - net. EBIT for the six month period ended June 30, 2020 also included \$5 million of charges related to the relocation of Bunge's global headquarters from White Plains, New York to St. Louis, Missouri, included in SG&A.

## ➤ Definition and Reconciliation of Non-GAAP Measures

---

This earnings release contains certain "non-GAAP financial measures" as defined in Regulation G of the Securities Exchange Act of 1934. Bunge has reconciled these non-GAAP financial measures to the most directly comparable U.S. GAAP measures below. These measures may not be comparable to similarly titled measures used by other companies.

### **Total Segment EBIT and Adjusted Total Segment EBIT**

Bunge uses segment earnings before interest and tax ("Segment EBIT") to evaluate the operating performance of its individual segments. Segment EBIT excludes EBIT attributable to noncontrolling interests. Bunge also uses Core Segment EBIT, Non-Core Segment EBIT and Total Segment EBIT to evaluate the operating performance of Bunge's Core reportable segments, Non-Core reportable segments, and Total reportable segments together with its corporate and other activities, respectively. Core Segment EBIT is the aggregate of the earnings before interest and taxes of each of Bunge's Agribusiness, Refined and Specialty Oils, and Milling segments. Non-Core Segment EBIT is the earnings before interest and taxes of Bunge's Sugar & Bioenergy segment. Total Segment EBIT is the aggregate of the earnings before interest and taxes of Bunge's Core and Non-Core reportable segments, together with its corporate and other activities.

Adjusted Core Segment EBIT, Adjusted Non-Core Segment EBIT, and Adjusted Total Segment EBIT, are calculated by excluding temporary mark-to-market timing differences, as defined in note 3 below, and certain gains and (charges), as described in "Additional Financial Information" above, from Core Segment EBIT, Non-Core Segment EBIT, and Total Segment EBIT, respectively.

Core Segment EBIT, Non-Core Segment EBIT, Total Segment EBIT, Adjusted Core Segment EBIT, Adjusted Non-Core Segment EBIT, and Adjusted Total Segment EBIT are non-GAAP financial measures and are not intended to replace Net income (loss) attributable to Bunge, the most directly comparable U.S. GAAP financial measure. Bunge's management believes these non-GAAP measures are a useful measure of its reportable segments' operating profitability, since the measures allow for an evaluation of segment performance without regard to their financing methods or capital structure. For this reason, operating performance measures such as these non-GAAP measures are widely used by analysts and investors in Bunge's industries. These non-GAAP measures are not a measure of consolidated operating results under U.S. GAAP and should not be considered as an alternative to net income (loss) or any other measure of consolidated operating results under U.S. GAAP.

### **Net Income (loss) attributable to Bunge to Adjusted Net Income (loss) available for common shareholders**

Adjusted Net Income (loss) excludes temporary mark-to-market timing differences, as defined in note 3 below, and certain gains and (charges), as described in "Additional Financial Information" above, and is a non-GAAP financial measure. This measure is not a measure of Net income (loss) attributable to Bunge, the most directly comparable U.S. GAAP financial measure. It should not be considered as an alternative to Net Income (loss) attributable to Bunge, Net Income (loss), or any other measure of consolidated operating results under U.S. GAAP. Adjusted Net income (loss) is a useful measure of the Company's profitability.

We also have presented projected adjusted net income per common share for 2021. This information is provided only on a non-GAAP basis without reconciliation to projected net income per common share for 2021, the mostly directly comparable GAAP measure, due to the inability at this time to quantify certain amounts necessary for such reconciliation, including but not limited to future market price movements over the remainder of the year.

Below is a reconciliation of Net income attributable to Bunge, to Total Segment EBIT, and Adjusted Total Segment EBIT:

(US\$ in millions)	Quarter Ended June 30,		Six Months Ended June 30,

<b>Adjusted Net income (loss) per common share - diluted</b>	<b>\$ 2.61</b>	<b>\$ 1.88</b>	<b>\$ 5.72</b>	<b>\$ 2.80</b>

(a) Approximately zero and 7 million outstanding stock options and contingently issuable restricted stock units were not dilutive and not included in the weighted-average number of common shares outstanding for the three months ended June 30, 2021 and 2020, respectively. Approximately 2 million and 6 million outstanding stock options and contingently issuable restricted stock units were not dilutive and not included in the weighted-average number of common shares outstanding for the six months ended June 30, 2021 and 2020, respectively.

## Notes

- (1) A reconciliation of Net income (loss) attributable to Bunge, to Net income (loss) is as follows:

(US\$ in millions)	Six Months Ended June 30,	
	2021	2020
Net income (loss) attributable to Bunge	\$ 1,194	\$ 332
EBIT attributable to noncontrolling interest	95	—
Noncontrolling interest share of interest and tax	(3)	(3)
<b>Net income (loss)</b>	<b>\$ 1,286</b>	<b>\$ 329</b>

- (2) The Processing business included in our Agribusiness segment consists of: global oilseed processing activities, which principally include the origination and crushing of oilseeds (including soybeans, canola, rapeseed and sunflower seed) into protein meals and vegetable oils; the distribution of oilseeds, oilseed products and fertilizer products through our port terminals and transportation assets (including trucks, railcars, barges and ocean vessels); fertilizer production; and biodiesel production, which is partially conducted through joint ventures.

The Merchandising business included in our Agribusiness segment primarily consists of: global grain origination activities, which principally include the purchasing, cleaning, drying, storing and handling of corn, wheat and barley at our network of grain elevators; logistical services for the distribution of these commodities to our customer markets through our port terminals and transportation assets (including trucks, railcars, barges and ocean vessels); and financial services and activities for customers from whom we purchase commodities, and other third parties.

- (3) Mark-to-market timing difference comprises the estimated net temporary impact resulting from unrealized period-end gains/losses associated with the fair valuation of certain forward contracts, readily marketable inventories (RMI), and related futures contracts associated with our committed future operating capacity. The impact of these mark-to-market timing differences, which is expected to reverse over time due to the forward contracts, RMI, and related futures contracts being part of an economically-hedged position, is not representative of the operating performance of our business.

- (4) In the reconciliation of Net income (loss) per common share - diluted ("GAAP EPS") to Adjusted Net income (loss) per common share - diluted ("Adjusted EPS"), the item "Adjustment of redeemable noncontrolling interest" represents the impact on GAAP EPS of a retained earnings adjustment associated with the carrying amount of the redeemable noncontrolling interest recorded in respect of our 70% ownership interest in Lodgers. The carrying amount of redeemable noncontrolling interests is the greater of: (i) the initial carrying amount, increased or decreased for the noncontrolling interests' share of net income or loss, equity capital contributions and distributions or (ii) the redemption value. Any resulting increases in the redemption value, in excess of the initial carrying amount, increased or decreased for the noncontrolling interests' share of net income or loss, equity capital contributions and distributions, are affected by corresponding charges against retained earnings. Additionally, any such charges to retained earnings will affect Net income (loss) available to Bunge common shareholders as part of Bunge's calculation of GAAP EPS.

Bunge's management excludes the "Adjustment of redeemable noncontrolling interest" from its calculation of Adjusted EPS, on the basis that it is independent of the Company's operations. However, such charges reverse only to the extent that Lodgers' net income levels result in the carrying amount of redeemable noncontrolling interests, calculated as described above, exceeding the redemption value.

- (5) A reconciliation of Cash provided by (used for) operating activities to Adjusted funds from operations (FFO) is as follows:

(US\$ in millions)	Six Months Ended June 30,	
	2021	2020
Cash provided by (used for) operating activities	\$ (1,436)	\$ (1,502)
Foreign exchange gain (loss) on net debt	133	107
Working capital changes	2,454	2,189
Net (income) loss attributable to noncontrolling interests and redeemable noncontrolling interests	(92)	3
Mark-to-Market timing difference, after tax	(159)	20
<b>Adjusted FFO</b>	<b>\$ 900</b>	<b>\$ 817</b>
